Introduction to DotGolf club software

DotGolf is an independent software solution provider, servicing both New Zealand's golf industry and international golfing markets. Since 1999 they have worked closely with golf clubs and golfing organisations to develop custom software, to meet their needs.

They pride themselves on delivering feature-rich and easy-to-use products, utilising the latest software technologies. With one of the highest number of golf courses per capita in the world, New Zealand has benefited from being at the forefront of golfing software for over 17 years, with every affiliated golfer, golf club and district in the country linked to the New Zealand Golf network.

DotGolf: what they're saying

We have recently made the change to DotGolf, and the help and support we have received have made this a seamless transition. We now have Xero integrated, and the subscription system is easy to operate and user friendly. Thanks for making my job easier.
